

# **HCI Assignment No. : 06**

---

Name: Sanika Pravin Dalvi

Class: TE (A) Information Technology

Subject: Human Computer Interaction Roll No. : 28

Aim: Develop website using any CMS tool.

---

Aim: Develop website using any CMS tool.

## What is Wordpress?

WordPress is a free and open-source Content Management System (CMS) that helps users create, design, and manage websites easily without needing to code. It offers thousands of themes and plugins to customize a website's appearance and features. With WordPress, you can build blogs, business sites, portfolios, e-commerce stores, and educational portals effortlessly.

Interesting fact: Over 40% of all websites on the internet are built using WordPress — from small personal blogs to big brands like BBC, NASA, and Microsoft News, showing how powerful and popular it is worldwide!

Easily accessible study materials website:

The screenshot shows a website template for "studyraaa". The header includes the site name "studyraaa" and navigation links for "Home", "Contact", "About", and "Blog". The main content area features a large, bold title "Access Quality Study Resources" and a subtitle explaining the purpose: "Find previous question papers, notes, and learning materials to excel in your engineering studies effortlessly." A prominent "Get Started" button is located below the title. To the right of the text, there is a photograph of several interlocking metal gears of different sizes arranged on a wooden surface in a classroom setting, symbolizing mechanical engineering or study resources.

How Our Platform Supports Your Engineering Study

# Access Hangout Materials, Past Papers, and Notes

About

Our platform is designed to empower engineering students by providing quick access to essential study resources. From detailed notes to previous exam papers, students can find everything they need to excel in their coursework and prepare for exams efficiently. We aim to simplify your study process so you can focus more on mastering concepts and less on search efforts.

## Services

Provides comprehensive study resources for engineering students.
